Adventures in Writing (3-6)

Discover the artistry of cursive handwriting and the joy of pen pal connections through fun-filled activities and interactive lessons. The children will immerse themselves in the beauty of handwriting, develop their own unique style, and forge friendships through the written word. Join us for sessions of exploration, creativity and the timeless pleasure of putting pen to paper.

Suzan Galbreath, Ohio Distance and Electronic Learning Academy

Amazing Authors, Animals Galore and Let's Make Books (K-2 and 3-6)

Have fun exploring your skills as a writer, editor and illustrator. Using copies of book covers, create your own story ideas, help each other edit and produce your very own book! We will take a deeper dive into nonfiction as we explore animals of all kinds!

Linda Remark, Stark State College

Basic American Sign Language (K-2 and 3-6)

This beginners' course in ASL will cover the basics of American Sign Language. No previous knowledge necessary! We will use games, songs and everyday communication to learn ASL.

*Jennifer Armstead, Danielle Shirey, Sydney VanHove
Stark State College*

Detectives and Dilemmas (3-6)

In this collaborative mystery game, you'll learn about police procedure, evidence collection, the limitations of forensics, and following clues to unravel a mystery before time runs out and the case goes cold. You'll be tasked with searching for clues, following leads and gathering evidence. Critical thinking skills and logic games will help sharpen your skills.

Joel Blue, Stark State College

Greek Myths, Superheroes and Folklore (K-2 and 3-6)

Welcome to the exciting world of Greek myths, superheroes and folklore. In this course, students will embark on a thrilling journey through ancient stories, modern superheroes and fascinating folktales from around the world!

Larry Gargus, Massillon City Schools

Nature, Patterns and Construction (K-2)

Join us on the exploration of nature, patterns construction. Students will engage in hands-on exploration and observation of wonders of nature. In addition to studying nature, students will also investigate the fascinating world of patterns – both in the natural world and in human creations. Students will also have the opportunity to examine the principles of construction and engineering through hands-on experiences of building structures by planning, designing and constructing!

Leah Byers, Fairless Local Schools

The World: Under, On and Over! (K-2)

Explore our world under, on and over! Take a dive into the depths of our oceans and explore sea life on this underwater adventure. Come up to land to explore our world and the sights you'll find in various countries. Finally, blast off over to space and explore our solar system and other galaxies!

Leah Byers, Fairless Local Schools

fine arts

performance | musical and visual arts

Amazing Art Adventures (K-2)

Welcome to Art Adventures, where creativity knows no bounds! In this course, students will gain experiences using various art mediums that include graphite, oil pastels, colored pencils and more. Unleash your imagination while discovering new art mediums and their unique characteristics, techniques and possibilities!

Dawn Umberger, Perry Local Schools

Charcoal Drawing and Journaling (K-2)

Be creative and develop personal style using charcoal and shading. Design pictures using pastel chalks, markers and crayons. Students will also explore the creative process of journaling. You'll experience different books each day, and after each story and discussion you'll write a story and learn to draw step-by-step pictures of people, animals and insects with details and settings. You'll take home a journal to continue at home.

Regina Thomas, Stark State College

Crafty Creations (3-6)

Explore the art of Perler beads, create stunning cross-stitch designs and delve into the world of jewelry making. From colorful beads to shimmering threads and dazzling accessories, you will unleash their creativity while developing fine motor skills, patience and attention to detail. Join us for a journey of creativity and self-expression as we craft unforgettable treasures together.

Cara Moore, Kingsway Christian School

Introduction to Dance (K-2 and 3-6)

Where students will be immersed in rhythm, movement and expression through the world of dance. Get ready to move those feet – students will experience an introduction to various dance styles including ballet, tap, jazz and hip hop. No dance experience necessary!

Kelsey Harkness, Unity Dance Center

Stage Comedy and Improv (3-6)

Learn techniques of improvisational acting and how to perform short sketches and plays. These exercises include development of fun and interesting characters, interpretation and reliance on cast members for inspiration.

Robert Berens, Stark State College

That's So Dramatic! (3-6)

Be in a play this summer. Sign up each week to prepare for the show on the last day of Kids' College. Invite your family and friends to the auditorium to watch you perform. Move through the planning, production and performance of a play and get the opportunity to learn dramatic interpretation and emotional analysis of character and plot.

Be sure to sign up for this class all 4 weeks.

Robert Berens, Stark State College

The Power of Music (3-6)

In this interactive class, delve into the songs that have left footprints on your hearts. Through listening, reflection and creative expression, you'll uncover the power of music to inspire, comfort and ignite the imagination. Join us on a journey where every beat tells a story, and every lyric paints a picture of the melodies that influenced their lives.

Larry Gargus, Massillon City Schools

physical movement and health

Gym Games Galore (K-2)

Get ready, get set, go! In this class, we will explore all things gym. We will cover game fundamentals, rules, good sportsmanship, teamwork and more.

Logan Bing, Fairless Local Schools

Yoga and Healthy Habits (K-2)

Learn how to relax and stretch your body and mind. Focus on your breathing and learn to meditate. Discover the powerful fun of yoga: balance, strength, flexibility and self-control. Bring a beach towel to use for your mat! In addition to yoga, this course will focus on overall healthy habits. Students will explore ways to reduce stress, relax and re-energize your body in healthy ways.

Animals Around the World (K-2)

Calling all animals lovers! Come embark on a wild journey to discover the amazing creatures that inhabit our planet! Students will explore the rich diversity of wildlife found in different ecosystems around the world, from the depths of the ocean to the heights of the mountains.

Logan Bing, Fairless Local Schools

Build and Play: Math and Science Adventures (3-6)

Join our fun class where we explore math, science and probability through building and games. Hands-on activities encourage critical thinking and problem-solving skills while making learning enjoyable. Explore concepts through play and discovery!

Angela Mowery, Akron Public Schools

Fairy Tales and STEM (K-2)

Immerse yourself into the classic world of fairy tales. We will explore the science, technology, engineering and math associated with them through fun hands-on activities.

Cathy Fisher, Preschool Teacher

Flex Factor (3-6)

Work in teams to identify a real-world problem and brainstorm ideas in new and creative ways. FlexFactor® introduces you to advanced manufacturing technologies and careers in STEM-based fields.

Lisa Miller, Stark State College

Machines, Challenges and Careers (K-2)

Come explore the worlds of science, technology, engineering and math through challenging activities. Sensational topics and experiments will engage students throughout the week. Career explorations that utilize STEM will also be covered.

Pamela Balistreri, Jackson Local Schools

Minecraft Masters and Roblox Realms (K-2 and 3-6)

Calling all gamers: Join us for a fun adventure into the realms of Minecraft and Roblox. We will explore creative and survival modes including mods, maps, worlds, hobbies and mining. See what the pros are creating and learn the basics of each game. From beginners to more advanced players, there's something for everyone!

*Luke Wingerter, Stark State College
Laura Gargus, Stark State College
Larry Gargus, Massillon City Schools*

Photography Fun (3-6)

Step into the world of visual storytelling in our dynamic photography class! Whether it's through the lens of a digital camera or the instant gratification of instant film, children will explore the art of photography using Movie Maker, learning how to compose captivating images, play with color and frame their subjects in creative ways.

Stephanie Beltz, Tuslaw Local Schools

Silly Science (K-2)

Silly Science – where curiosity and laughter team up for fun! Students will discover and explore the wacky and wonderful world of science through a series of fun and silly experiments. Students will unleash their inner scientists as they conduct hands-on experiments and make surprise discoveries guided by the principles of physics, chemistry, biology and more.

Cathy Fisher, Preschool Teacher

hobbies and recreational activities

Balloon Fun I (3-6)

Balloon games, balloon crafts and balloon relays. Ever wonder how they turn those balloons into monkeys, palm trees, dinosaurs and crazy hats? Well, now you can learn how to do it yourself and be the life of the next party! The class includes a starter kit of 100 balloons, pump and workbook.

*Eric Salman, Stark State
Starla McClure, Summit Christian School*

Growing Readers (K-2 and 3-6)

Explore the wonders of plants and gardening in Growing Readers. Students will discover the magic of plants through reading, research, and hands-on activities while enhancing their literacy skills. Join us on this enriching journey to cultivate flourishing readers and budding botanists, fostering a love for reading and an appreciation of the natural world.

*Dr. Chanda Rhodes Coblentz, Associate Professor
School of Education University of Mount Union*

hobbies and recreational activities

(continued)

Hollywood Special Effects and Make-up (3-6)

Did you ever wonder how actors look so scary, funny old or strange in the movies? This is a beginner class to explore different special make-up effects like zombies, cuts and bruises, fantasy face, fake hair, latex pieces and more. **NOTE: This class is not recommended for those with latex allergies.**

Dale Smith, retired Ringling Bros. Barnum and Bailey Circus clown

Home Hobbies (K-2)

Welcome to Home Hobbies, where we turn everyday activities into exciting adventures! In this course, students will discover the joys of gardening, baking and art as they explore their creativity and develop new skills that can be used at home.

Becky Farley, Massillon City Schools

Kid-Friendly Dungeons & Dragons (3-6)

Embark on a magical journey in our kids' Dungeons & Dragons class! Dive into a world of heroes, monsters and quests as you unleash your imagination. Learn teamwork, problem-solving and creativity while crafting epic tales with friends. Join us for an adventure-filled class where every roll of the dice brings excitement and fun.

Jake Philpot, Jackson Local Schools

Practical Jokes and Face Painting (K-2)

How about some real fun? Mr. D. will use some everyday objects from around the house to share with you some harmless but hilarious funny jokes, games and impossible tricks and stunts to amuse yourself and all your friends. Students will also learn the basic techniques of full-face painting. Transform yourself and your classmates into characters of fantasy, sci-fi and more!

Dale Smith, retired Ringling Bros. Barnum and Bailey Circus Clown

The Geek Culture Club (K-2 and 3-6)

This a vibrant and engaging class designed to foster creativity, critical thinking, and a sense of community among enthusiasts of various pop culture realms. This club offers a diverse range of activities centered around four key pillars: Lego projects, video games (with a focus on Fortnite), Comics Book Club, and comics and cartoons discussion sessions.
