The annual assessment summary report assists the College in documenting assessment progress and provides department chairs with assessment data needed to complete their academic program review. Department chairs will summarize information for the courses assessed in their department during the academic year. Chairs will forward their department summary report to their dean by June 7. Deans

will summarize information for the courses assessed in their division and forward their division report to the Provost by June 21. The Provost will prepare an Academic Affairs' assessment report by July 19.

1. Briefly summarize the data that was collected related to each of the General Learning Outcomes and the plans for improvement if below 70%.

During the 2023 - 2024 AY the BEIT Division continued to review course content and assessments for the fall 2020 – spring 2024 assessment cycle. Faculty were provided training and/or refresher training to make sure they understood the process in order to determine areas of improvements for student learning. Any achievement level for any evaluation method that fell below the 70% minimum college standard was reassessed during the fall 2023/spring 2024 AY. Many of the courses that were assessed this academic year met the 70% or above GLO outcomes. Below are the two courses that fell below the 70% minimum college standard:

1. AIT103 Non-Destructive Testing

IMPROVEMENTS: After meeting with the instructor, it appears that some students were having difficulty with the W-2 format of the course. Next semester we will initiate an in-depth outline for the students that will guide them through the process of completing on-line assignments. Instructors will be more proactive in communicating with students on a weekly basis pertaining to course progress for the student to become successful.

2. ACC128 Accounting Basics for Managers

IMPROVEMENTS: ACC128 Accounting Basics for Managers is being completely revised and updated for Fall 2024 to better meet the objectives of the course and the needs of this particular group of students who take this course.

In the spirit of continuous improvement, some courses have been redesigned or improved for ease and use of students. This may include online learning environment aspects, videos, books, course objectives, and General Learning Outcomes.

1a. Courses assessed/total number of eligible courses in your department or division during this past academic year = $207 / 545 = 38\%$
(ex. $8/45=18\%$)

Eligible courses reflect all approved courses in your department/division, including courses with an effective date, during this academic year. Re-assessed courses should not be included in this section. Report re-assessed courses in 1b below. (Please provide numbers, including zero (0), in the blanks below. If not applicable, indicate with an NA.)

3. Include evidence of students achieving or not achieving the learning outcomes. List each course assessed and re-assessed with the GLOs for each course including the complete data and percentages.

TOTAL	95%	92%	95%	94%	91%	99%

4. Outline and summarize the action plans that have been developed to improve student learning based on the evidence for this year.

Each department continually reviews and monitors each course and program to ensure student learning outcomes are achieved. In addition to improvement plans for the various methods of evaluation, improvement strategies for course sequencing/alignment, tutoring, advising, communication, training of faculty, and early intervention are discussed, reviewed, updated and/or implemented.

Many of the course offerings for the academic year that were assessed exceeded the criteria for student learning outcomes. However, there were two courses that fell below the 70% criteria; therefore, we will continue to improve learning outcomes by following the guidelines below in areas specifically where reassessment occurs.

AIT103 Non-Destructive Testing

- After meeting with the instructor, it appears that some students were having difficulty with the W-2 format of the course.
- Next semester we will initiate an in-depth outline for the students that will guide them through the process of completing online assignments.
- Instructors will be more proactive in communicating with students on a weekly basis pertaining to course progress for the student to become successful.
- We will continue to improve learning outcomes by following the general improvements and reinforcements suggestions for all courses as listed below.

ACC128 Accounting Basics for Managers

- This course is being completely revised and updated for Fall 2024 to better meet the objectives of the course and the needs of this particular group of students who take this course.
- Instructors will encourage better student advising regarding the rigors of and discipline and time-commitment required of web-based classes. They will also increase the use of video and audio-based learning within W2, W3 and W4 sections and continue to encourage students to take advantage of those resources.
- We will continue to improve learning outcomes by following the general improvements and reinforcements suggestions for all courses as listed below.

General Improvements and Reinforcements for all courses where applicable:

- Instructors will reinforce key concepts from classes to improve student learning outcomes.
- Instructors will provide appropriate support materials on Blackboard and take advantage of extensive web-based resources from publishers including videos and online applications of concepts.
- Online instructors will encourage better student advising regarding the rigors of and discipline and time-commitment required of web-based classes. They will also increase the use of video and audio-based learning within W2, W3 and W4 sections and continue to encourage students to take advantage of those resources.
- Instructors with assessment methods that fall below the minimum requirement will place more emphasis on the key concepts contained in the applicable sections of the course and continue to evaluate specific testing and assignments to be sure the key concepts are being practiced and explained.
- Instructors will emphasize to students the availability and benefits of utilizing our tutoring center supplemental instruction (Title III), both in person and online in Zoom.
- We will continue to reevaluate the validity of test and quiz questions and problems to be sure they are relating closely to instruction provided.
- Faculty will continue to review the GLO's, PLO's, and SLO's as well as review the methods of evaluation of all the department's courses.
- Faculty continuously update and revise course content and materials to be current with the professional requirements and needs of employers.
- Revisions to grading scales for assignment categories and grading criteria as appropriate (increased/improved Rubrics).
- Instructors will continue to reevaluate study guides and review exercises.
- Instructors will attempt to provide additional materials to support content of chapters.

5. What steps did you take to ensure shared responsibility from faculty/staff/students/advisory boards/etc. for student learning and assessment of student learning?

We continue the practice of Department Chairs requiring faculty to evaluate their course/courses assessment and to review their plans for improvement that they identified on the course assessment forms from previous semesters/cycle. They are also instructed to re-assess any method of evaluation that fell below the minimum standard and report the achievement level. Chairs continue to mentor and instruct any adjuncts, including CCP, that are teaching a course that need to be assessed or reassessed during the 2023-2024 AY. Faculty have been implementing new testing procedures to better evaluate student comprehension.

Faculty have been participating in focus groups to evaluate and rearrange classroom activities for better student engagement. All Master and Class syllabi are housed on the "G" drive for easy access to full and part-time faculty. One-on-one sit down mentoring is available for full-time and part-time faculty to assure full understanding and compliance with the required assessment form completion. This aids in accurate reporting. Advisory committees meet to discuss course offerings and any proposed changes regarding courses and their viability to their

programs and certificates. Student attendance is always documented to help ensure student success through mentor/faculty interaction with students.

6. Identify the steps you plan to take to improve the effectiveness of the efforts to assess and improve student learning for next year.

Steps for Improvement	Resource(s) Needed
New electronic lab implementation	Focus Groups/Curriculum Meetings
PowerPoint review and update	Focus Groups/Curriculum Meetings
Update the LMS	Focus Groups/Curriculum Meetings
Tool and equipment assessment	Focus Groups/Curriculum Meetings
New book implementation	Focus Groups/Curriculum Meetings
Altering tests to match new book	Focus Groups/Curriculum Meetings
