Comments: Curriculum at Stark State College will satisfy state requirements for Dental Assistant Radiographer certification. Dental Assistant Radiographer certification is not required for employment but is required to operate dental x-ray equipment and expose dental images. Additionally, there may be other requirements to sit for licensure/certification such as background checks, etc. Stark State College cannot guarantee that graduates of the program meet the criteria for all state dental boards, because professional licensure/certification requirements vary from state to state. Dental assisting students who wish to work outside of Ohio should contact the appropriate state board prior to enrolling in Stark State College's program.
