Comments: Stark State College’s dietetic technician program meets ACEND-requirements. However, completing an ACEND-accredited academic program alone does not qualify an individual for licensure or certification as

a dietetic technician in any state. Individuals should review each state's licensing statutes and regulations to understand the specific requirements, including supervised practice and examinations, needed to obtain a dietetics license. The State of Ohio does not require licensure for dietetic technicians. More information about state licensure and certification can be found at this link: [State Licensure](#).
